

CAPISTRANO

- + The Capistrano is a shaker style thermofoil door with square corners and is a popular choice among designers and builders. The Shaker thermofoil style works in contemporary, traditional or transitional designs and is an excellent choice for any budget.
- + We use a silky smooth thermofoil for our Capistrano door which gives it an elevated look and feel. It is available in white and is part of our Premium frameless cabinet line which includes full backs on the bases and uppers, white interiors and meta-box type drawer system.
- + RTF cabinet doors are tough, easy to clean and resistant to fading, keeping their true color. The Capistrano door is also heat resistant when next to a dishwasher or oven.
- + The Capistrano door combines the classic look and feel of a shaker door with a strong, robust cabinet suited for any room at an outstanding price. It's a simple decision to be made; Capistrano is the choice when style, quality and budget are all in consideration.
