

## KATELLA

- + The Katella is a raised panel thermofoil door with square corners and clean lines. It's perfect for any design vision; it's modern, durable and affordable. The drawer fronts are also raised panel to match the classic look.
- + Its intricate inside edging creates an eye-catching design around the raised center panel. We use a silky smooth thermofoil to give the Katella an added level of luxuriousness.
- + The Katella is part of our Premium frameless cabinet line which includes full backs on the bases and uppers, white interiors and meta-box type drawer system.
- + RTF cabinet doors are tough, easy to clean and resistant to fading, keeping their true color. The Katella door is also heat resistant when next to a dishwasher or oven.
- + It's easy-care materials are a nice fit for kitchen's, laundry rooms, child's bathrooms or play rooms and because of its price point a great alternative to paint grade.
