

**MILAN**  
MACHIATTO

**MILAN**  
HI-GLOSS WHITE

**MILAN**  
WHITE ASH

**MILAN**  
GREY ELM

- + The Milan is a slab door and drawer front, with no frame or panel. It's the perfect door for any transitional or contemporary design vision.
- + The Milan door is made from highly durable textured melamine and is available in four colors: Machiatto, White Ash, Grey Elm and Hi-Gloss White. It is full overlay and paired with our Premium European, frameless cabinet.
- + Natural woods and veneers exhibit color and grain variations which are not always appreciated for contemporary design themes that require sleek consistent color. For this reason, engineered materials such as the Milan door and its finishes have been developed to specifically address this need and desire for consistency.
- + The durability and functionality of the Milan door and its available finishes, make it a great choice for both residential and commercial applications and commonly incorporated into contemporary kitchens, bathrooms, closets, and more.
- + The Milan is both sophisticated and comfortable, suitable for a range of clean, designs and styles.
