

VIRGINIA
STAIN SADDLE

- + The Virginia is a recessed panel door and drawer front. It's a smart choice for any transitional or traditional design where budget is a consideration.
- + The Virginia is part of our Premium frameless cabinet line which includes full backs on the bases and uppers, white interiors and meta-box type drawer system. Is currently available in the Saddle finish.
- + The Virginia door is an excellent choice for both new construction and remodeling residential applications and commonly incorporated into kitchens, bathrooms, laundry rooms, and more. It is a great alternative to paint grade and to thermofoil.
- + RTF cabinet doors are tough, easy to clean and resistant to fading, keeping their true color. The Katella door is also heat resistant when next to a dishwasher or oven.
- + With the cope and stick joint construction the recessed panel door resists warping where others fail. The combination of the recessed panel wood door on the Premium frameless cabinet box make it a popular door with builders.
- + The Virginia is a comfortable and traditional door, suitable for a range of designs and project types .
